## Why PLAY!

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Vivamus eu condimentum nulla, ac pretium nunc. Mauris gravida, lectus vel ornare imperdiet.

## Machine learning algorithm to train AI agents in playing hide-and this video plays a vital role in our product design our philosophy!

in our environment, agents play a team-based hide-and-seek game. Hiders (blue) are tasked with avoiding line-of-sight from the seekers (red), and seekers are tasked with keeping vision of the hiders.

## Can machine learning recognize your drawing?

Quick, Draw! is an online game developed by Google that challenges players to draw a picture of an object or idea and then uses a neural network artificial intelligence to guess what the drawings represent. The AI learns from each drawing, increasing its ability to guess correctly in the future. Help teach it by adding your drawings to the world's largest doodling data set, shared publicly to help with machine learning research. Let's Draw!

# ABOUT US

## WHO ARE WE?

TalentGX is the latest Singapore-based HR tech start-up, founded by Abel Saw and Chia Yei (CY).

Prior to TalentGX, the two founders held HR leadership positions of companies with more than 30,000 headcount and worked as Talent consultant with a global consulting firm.

The ideas crystalized when we observed several pain points and unserved market demands from our experience as in-house HR.

Our missions are to leverage Machine Learning to enable actionable real-time analytics for data-driven decision making in HR and spearhead the gamification experience in Talent Management for millennials.
